

Operational and Security Intelligence

INFORMED DECISIONS, IMPROVED OUTCOMES

The amount of data being produced today by organizations of all sizes and specialties is not just unprecedented in history, but may in fact be the defining characteristic of our era. It is clear now, and will be even more so as time goes on, that the organizations that successfully harness it, learn fromit, and apply it will be the ones that rise to the top.

WHY ZIVARO

- Splunk's 1st Elite and one of the most credentialed partner in North America, with more than 140 certifications across sales, engineering, architecture, administration and consulting
- Splunk Authorized Training Provider with in-depth, customizable training solutions available on-site, virtually or at our training center
- Certified delivery resources across virtually all Splunk premium applications including Enterprise Security, PCI, VMware and IT Service Intelligence (ITSI)
- Cisco Gold Partner (Master Certifications in Security, Cloud Builder and Collaboration);
 Expertise in Cisco Identity Services Engine (ISE) and SourceFire technologies
- First Splunk Elite Public Sector Partner in U.S.
- Recognized with six
 Splunk Partner Awards

THIS IS WHERE ZIVARO SHINES

Our Big Data Analytics practice has been developed in close coordination with Splunk, the leading machine data analysis and accessibility company in the world. Zivaro was the first partner in North America to reach the highest levels of Elite partnership with Splunk by designing and deploying its solutions to a network of private and public sector clients in industries governed by regulatory compliance (e.g., PCI, SAS-70, GLBA,HIPAA, FISMA, etc.).

END-TO-END SPLUNK SOLUTIONS

- Architecture, engineering, health-check, assessments, design and implementation services, use case development
- Development and customizations, including customized search, alerts and dashboards and any other specific use case or compliance needs
- Software licensing
- Compliance audit readiness

- Professional services integration for Splunk Enterprise and premium applications like Enterprise Security (ES), IT Service Intelligence (ITSI), VMware and PCI
- Customized training and Splunk Certified Education services
- Optimization of existing Splunk environments

Operational and Security Intelligence

OPERATIONAL INSIGHT & VISIBILITY

Zivaro empowers organizations to embrace proactivity with our custom-built, scalable IT monitoring and analytics solution set. But we don't stop there. We also ensure that staff is trained in deriving operational value and insight from the solutions to make better decisions faster. Our proprietary methodology and unparalleled expertise mean that you'll gain dramatically improved situational awareness not just of your operating environment but also in other areas in which a competitive advantage could be leveraged.

SECURITY POSTURE ENHANCEMENT

Our Splunk solutions work to establish real-time security visibility across your organization so that you quickly detect and respond to threats, map and search correlations, review incidents and manage risk, fraud and compliance regulations. And with Zivaro's deep experience with security and management tools, including our Cisco Master Certification in Security, you'll be able to anticipate, plan for and circumvent security and disaster scenarios to gain market share and assuage regulators.

SERVICE & APPLICATION INSIGHT

Splunk solutions from Zivaro are designed to rapidly improve decision-making around service and application performance and optimization. We build a flexible, agile application and KPI-centric view of your organization to quickly provide intelligence about your true business value – and how your service and application performance is affecting it. Our offerings deliver the right people and reporting, to understand and improve the customer experience – from the ground up and the inside out.

BIG DATA ANALYTICS SUCCESS STORIES

- Core Splunk and Enterprise Security assessment, design, training and implementation services for oil and gas company to enhance its security posture
